

**Evaluation of Determination, Enforcement, Regulation and Monitoring of Entitlement in Pilot Projects for the Rabi & Hot Weather Seasons 2010-11**

- 1.0 In the year 2006-07, the concept of Entitlement was initiated with 5 pilot projects from the Krishna basin as per the provision in Section 11(a) of MWRRA Act, 2005. The Entitlement Programme extended over the years. The number of projects covered under the Programme is:-

	Addition during the year					No. of projects
Year	2006-07	2007-08	2008-09	2009-10	2010-11	Total
2006-07	5					5
2007-08		15				20
2008-09			57			77
2009-10				52		129
2010-11					100	229

During the year 2010-11 the number of Water User Associations (WUAs) covered under the Programme is 527.

- 1.1 Category-wise and river basin-wise abstract of the 229 pilot projects considered under the Entitlement Programme for 2010-11:

Sr. No.	Category of Project	River Basin					WUAs under Entitlement
		Godavari	Krishna	Tapi	Konkan	Total	
1	Major	8	2	1	1	12	203
2	Medium	9	2	2	0	13	71
3	Minor	97	50	32	26	204	253
	Total	114	54	35	27	229	527

- 1.2 Of the 229 pilot projects considered under the Entitlement Programme 24 projects are not included in the Maharashtra Water Sector Improvement Project (MWSIP). The other 205 projects are from the MWSIP. The year

wise break-up of pilot projects under MWSIP considered under the monitoring and implementation of Entitlement Programme is-

Sr. No.	Irrigation Year	Project Category							
		Major		Medium		Minor		Total	
		Projects	WUAs	Projects	WUAs	Projects	WUAs	Projects	WUAs
1	2006-07	2	20	1	8	2	2	5	30
2	2007-08	4	25	4	41	11	14	19	80
3	2008-09	5	28	8	49	40	50	53	127
4	2009-10	5	28	10	53	90	105	105	186
5	2010-11	9	200	11	68	185	233	205	501

1.3 Year wise break-up of pilot projects outside MWSIP is -

Sr. No.	Irrigation Year	Project Category							
		Major		Medium		Minor		Total	
		Projects	WUAs	Projects	WUAs	Projects	WUAs	Projects	WUAs
1	2006-07	0	0	0	0	0	0	0	0
2	2007-08	1	1	0	0	0	0	1	1
3	2008-09	3	3	2	3	19	20	24	26
4	2009-10	3	3	2	3	19	20	24	26
5	2010-11	3	3	2	3	19	20	24	26

2.1 Annexure I gives list of all the 229 pilot projects giving break-up of total number of WUAs of the projects vis-a-vis number of WUAs included in the Entitlement Programme, corresponding WUAs area under Entitlement, total number of beneficiaries covered under the Entitlement Programme.

2.2 As per provisions in MWRRA Act, 2005 (Maharashtra Act No. XVIII of 2005), clause 11( g ),function of MWWRA is to lay down the criteria and monitor the issuance of Entitlement and as per provisions in clause

11(g)(iii), Bulk Water Entitlements for irrigation shall be issued by River Basin Agency to the Water Users Associations. Applicable Unit Water Use Entitlements on the basis of storage as on 15/10 were checked and communicated to field officers for all 229 projects under consideration, because the Entitlement programme is being implemented on pilot basis. However, in future Entitlement Criteria will be evolved by MWRRA and entitlements for irrigation will be issued by RBAs.

2.3 Annexure II (A) gives details of all the 229 projects where Entitlement Programme is implemented in Rabi season of the year 2010-11. The details such as number of WUAs actually covered under the Entitlement Programme, their corresponding area, corresponding applicable Entitlement in Thousand Cubic Metres (TCM) vis-a-vis actual quantity delivered in the Rabi season and corresponding area irrigated in Rabi & number of beneficiaries are tabulated in this Annexure.

### 3.0 Performance Evaluation of Pilot Projects (2010-11)

#### 3.1 Entitlement Programme for Rabi

##### 3.1.1 Percentage of Entitlement Delivered:

Applicable entitlement for all 229 pilot projects is checked and communicated. The basis is the live storage as on 15 October 2010. The percentage of Entitlement delivered in Rabi (Tcum) with respect to the Applicable entitlement (Tcum), in various ranges during the Rabi season is given below.

#### % of Entitlement delivered in Rabi season

Serial Number	Range of % of Entitlement delivered in Rabi season w.r.t. the Applicable Entitlement	Number of projects	Cumulative number of projects
1	2	3	4
1	Above 125	12	12
2	100 to < 125	17	29
3	90 to < 100	11	40
4	80 to < 90	18	58
5	70 to < 80	16	74

Serial Number	Range of % of Entitlement delivered in Rabi season w.r.t. the Applicable Entitlement	Number of projects	Cumulative number of projects
6	60 to < 70	20	94
7	50 to < 60	23	117
8	40 to < 50	19	136
9	30 to < 40	16	152
10	20 to < 30	15	167
11	10 to < 20	14	181
12	> 0 to < 10	8	189
13	0	39	228
14	Project deleted	1	229

One pilot i.e. Navegaon Bandha is deleted.

The '0' deliverance of entitlement at 39 projects is attributed to the reasons indicated in the following table -

#### Reasons for not availing Entitlement

Reasons for not availing Entitlement	Number of Projects	Names of projects	reference serial number
A)No demand either in Rabi or in HW	Sixteen projects		
		1) Anjani	15
		2)Dhakani	32
		3)Sidhanath	36
		4)Dudhebhavi	37
		5)Belgaon	61
		6)Rengepar	78
		7)Satewadi	81
		8)Dighanchi	83
		9)Akharga	93
		10)Gothala	109
		11)Neoli	110
		12)Hingangaon	141
		13)Shegaon	144
		14)Dharur	189
		15)Tinraj	212
		16)Ankhoda	226

B)Saved for HW	Seven projects		
		1)Mangi	3
		2)Yamai	66
		3)Hanjagi	86
		4)Shirvalwadi	87
		5)Rampur	148
		6)Ghoddhari	182
		7) Lagam	228
C)Water saved for HW , but HW irrigation also not exercised	one project		
		1)Badrakha	69
D)Less delta available ( due to less storage)	one project		
		1)Paratwadi	209
E)Canal system not functioning/ canal rehabilitation work in progress / incomplete rehabilitation works	Fourteen projects		
		1)Shewaga	68
		2)Wafgaon	136
		3)Alegaon Paga	137
		4)Pimpoli	138
		5)Walén	139
		6)Mahur	140
		7)Shirwali	162
		8)Kalwande	163
		9)Vhel	164
		10)Harkul	169
		11)Shirwal	170
		12)Madkhol	171
		13)Pimprala	175
		14)Velhale	215
Total number of projects not availing Rabi irrigation	Thirty nine		

### 3.1.2 Percentage of area irrigated

Annexure II (A) gives the delineated area of WUAs under the entitlement, vis-a-vis actual area irrigated and percentage of area irrigated to the

delineated area. An abstract of % of area irrigated during Rabi of 2010-11 is given below.

Sr. No.	Range of % of actual irrigated area to the delineated area	Number of projects	Cumulative number of projects
1	2	3	4
1	80 to 100	4	4
2	60 to < 80	7	11
3	50 to < 60	9	20
4	30 to < 50	40	60
5	10 to < 30	93	153
6	> 0 to < 10	36	189
7	0	39	228
8	Project deleted	1	229

3.1.3 Evaluation of performance is made on the basis of % entitlement delivered, % of actual area irrigated and % number of beneficiaries covered.

Annexure II (A) presents project wise break up of :

- i) % of Entitlement delivered as against the total applicable entitlement due
- ii) % of actual area irrigated as against the total delineated area of WUAs
- iii) % of beneficiaries (members) received entitlement as against the total number of WUAs.

Performance of 2 projects viz. Dongargaon (Wardha) & Kannamwar gram M.I (Wardha) stands out remarkable as

- i) Actual area irrigated is more than 80 %.
- ii) % entitlement deliver is more than 70 %.
- iii) % of beneficiaries receiving entitlement against total no. of members is greater than 85 %.

### 3.2 Entitlement Programme for Hot Weather

3.2.1 After completion of irrigation in the Rabi season during the year 2010-11 on these 189 pilot projects, Hot Weather irrigation is exercised on 54 pilot projects as water was available and also there was demand from WUAs for Hot Weather irrigation. In the Annexure II(B) entitlement scenario of such projects is presented. In addition to these projects, hot weather rotations as a part of continuous Kokan-Hangam (i.e. Rabi plus hot weather starting from December & lasting till April) for paddy irrigation are given in projects from Konkan region & also few projects from Vidarbha region, for which season starts from January & lasts till May These projects are already included in Rabi Entitlement Programme.

#### 3.2.2 Performance Evaluation of Entitlement Programme on Pilot Projects in Hot Weather

Hot Weather Entitlement Programme was implemented on 54 pilot projects. Out of 39 projects where 0% entitlement is availed in Rabi, 7 projects are such that WUAs have deferred the Rabi Entitlement so as to avail the Entitlement in Hot Weather season. These projects are Mangi, Yamai, Hanjagi, Shirvalwadi, Rampur, Ghoddhari & Lagam.

3.2.3 On the basis of storages as on 28.02.2011, field officers computed the Applicable Entitlement for Hot Weather. An abstract of entitlement delivered in various ranges is given below.

#### % of Entitlement delivered

Sr. No	Range of % of Entitlement delivered in Hot Weather	Number of projects	Cumulative number of projects
1	2	3	4
1	above 125	5	5
2	100 to < 125	3	8
3	90 to < 100	6	14
4	80 to < 90	4	18
5	70 to < 80	5	23
6	60 to < 70	3	26
7	50 to < 60	2	28
8	40 to < 50	5	33

Sr. No	Range of % of Entitlement delivered in Hot Weather	Number of projects	Cumulative number of projects
9	30 to < 40	2	35
10	20 to < 30	5	40
11	10 to < 20	6	46
12	> 0 to < 10	8	54

3.2.4 An abstract of percentage area irrigated during hot weather is given below:

#### Percentage area irrigated during hot weather

Sr. No	Range of % of actual area irrigated in HW to the delineated area	Number of pilot projects	cumulative number of projects
1	2	3	4
1	50 to < 60	1	1
2	40 to < 50	0	1
3	30 to < 40	3	4
4	20 to < 30	9	13
5	10 to < 20	13	26
6	> 0 to < 10	28	54

#### 4.0 Inspection by Regulators

Annexure II (A) & II (B) give project wise number of visits during the rotations by the appointed regulators. As per the Technical Manual brought out by the Authority in 2007, a regulator has to make at least 3 random checks in a rotation period of 15 days or so. It is seen that on most of the projects, regulators could pay only 1 visit per rotation.

##### Impact of Regulators:

Enforcement of entitlements is one of the functions of MWRRA devolved by the Act. In order to monitor the enforcement of entitlements, MWRRA appoints regulators on the recommendation of the Water Resources Department. They are specially trained for the task they are intended to perform.

The Entitlement Programme implemented on pilot irrigation projects in the State during the period 2007-08 to 2010-11 has positively testified the performance of regulators which is clear from the following :-

- (i) There is a provision in the powers & responsibilities of Regulators to issue Pink slips, so that deficiency in operations could be rectified. Pink slip is issued by the Regulator to the Department's staff when the quantum supplied in any rotation is short by 15-20% of the agreed quantum. It is required to make good the shortfall in subsequent rotation.

Critical remarks in respect of deficient installation of measuring devices, improper field condition of canal system have been reported by regulators. This helped speed up undertaking corrective / remedial measures.

- (ii) Regulators have cross checked the quantities supplied by the field officers and have reported the same.
- (iii) Regulators have reported the requirements and requests of the WUAs to field officers and accordingly the action is taken by the field officers to set the matters right.
- (iv) Since the regulators are appointed by MWRRA and are to report directly to it, they have worked as representatives of MWRRA.
- (v) Regulators have visited at least once during every rotation and acted as an inter face between the WUAs and the Department's officials (RBAs).

## **5.0 Workshop on Operationalising Water Entitlement**

The objective of organizing workshop on Operationalising Water Entitlement is to have an interaction among service provider, managerial staff of WUAs and regulators (functioning on behalf of Authority). Such workshops provide an opportunity to present success stories of WUAs which have benefitted by way of implementation of Entitlement Programme. Other WUAs get inspiration through this for performance enhancement so that overall water use efficiency is further increased.

Regional Workshops at Nagpur & Aurangabad were organized, on 17/09/2010, & 04/10/2010, respectively. Workshops scheduled to be organized at Amaravati & Ratnagiri were cancelled due to some unavoidable reason, then combined workshop was organized at Pune on 15/10/2010, and concerned regulators, field officers, representatives of WUAs attended the workshop at Pune.

Regulators were introduced to their functions and duties as far as delivering entitlements was concerned. They are trained through such workshops as to the modus operandi of enforcement of entitlements.

## 7.0 Evaluation of Entitlement Programme (2010-11) in Nutshell

The total number of projects included in Entitlement programme is 229. Out of these 229 projects 205 projects are MWSIP projects & out of 1332 WUAs under these 205 projects 501 WUAs are included in Entitlement programme. MWRRA has planned to focus only on MWSIP projects for inclusion in Entitlement programme, as such Non-MWSIP projects are restricted to 24 projects. Out of 220 WUAs under these Non-MWSIP projects 26 WUAs are included in Entitlement programme. From irrigation year 2010-11, no new Non-MWSIP project will be included. Thus for total number of 1358 WUAs under these 229 pilot projects, 527 WUAs have been included under Entitlement programme 2010-11.

Total delineated area of 527 WUAs included in Entitlement programme so far is 220125 ha. Actual area which received entitlement in Rabi 2010-11 is 40068 Ha. & actual area irrigated in HW 2011 is 17470 Ha.

As per provisions in MWRRA Act, 2005, the Entitlement programme is introduced & Determination, Enforcement, Regulation of Entitlement is being implemented from irrigation year 2006-07. At this stage, the works of rehabilitation of distribution system and also the works of dam/dam components as proposed by DSRP are under progress and the concept of issuance & enforcement on volumetric basis, with legal backing is newly introduced. It will take some time to get momentum for this concept of reforms.

**ANNEXURE – I****Pilot Projects for Entitlement for the Year for 2010-11**

Sr.No.	Name of Project	Whether included in MWSIP	Basin	No of WUAs in the Project	WUAs under Entitlement.	No. of farmers under WUA	Area Under WUA in ha.
	<b>2006-07</b>
