Maharashtra Water Resources Regulatory Authority (MWRRRA)

 Clearance to the Kikvi Dam Project in Nashik District under GMIDC, Aurangabad (Kikvi Water Supply Project under Nashik Municipal Corporation) by MWRRRA under Section 11 (f) of the Act

Ref : 1) मु.अ. जलसंपदा विभाग, उत्तर महाराष्ट्र प्रदेश, नाशिक, यांचे पर क्र. उम्मी/ता.१/६०/२००९ दिन्नक २९/०२/२००९

2) Chief Engineer, WRD, North Maharashtra Region, Nasik’s letter No. NMR/T-1/1759/2009 dated 18/05/2009

3) Chief Engineer, WRD, North Maharashtra Region, Nasik’s letter No. NMR/T-1/2057/2009 dated 06/06/2009

AUTHORITY MEMORANDUM

1.00 Section 11 (f) of the MWRRRA Act (Act No.XVIII of 2005) reads as below:

"To review and clear water resources projects proposed at the sub-basin and river basin level to ensure that a proposal is in conformity with Integrated State Water Plan and also with regard to the economic, hydrologic and environmental viability and where relevant, on the State's obligations under Tribunals, Agreements, or Decrees involving interstate Entitlements:

Provided that, while clearing the new water resources projects by the concerned for construction proposed by River Basin Agencies, the Authority shall ensure that Governor's Directives issued from time to time, relating to investment priority for removal of regional imbalance are strictly observed;
Provided further that, in respect of the projects situated in Marathwada and Vidarbha Regions, the powers to accord administrative approval or revised administrative approval, under this clause, shall in accordance with the Governor’s directives, be exercised by the concerned River Basin Agency”.

2.00 The Kikvi Project is solely a Water Supply Project proposed near village Bramhanwade, Taluka Trimbak, District Nashik on Kikvi River in Upper Godavari sub-basin of Godavari basin was received for clearance by MWRRA under above mentioned Section of the Act; vide Ref No. 1.

3.00 (i) The project envisages construction of a dam 1,280 m long with gross storage of 70.36 Mm³ and live storage of 60.02 Mm³. The annual utilization of 35.00 Mm³ is for Nashik Municipal Corporation and 10.21 Mm³ is the annual evaporation loss.

(ii) The project has been cleared by C. E. (H.P.) Nashik, for water availability of 45.21 Mm³ at 100% success

(iii) The total land required for submergence is 929.96 ha and no villages are under submergence.

(iv) The project involves diversion of 207.47 ha forest land.

(v) The total cost of the project is Rs. 283.54 Crore excluding water distribution cost of Rs.100.00 Crore.

4.00 Vide Ref. No. (2) and (3), Nashik Municipal Corporation (NMC), Nashik has established the viability of the project by considering 50% grant from Jawaharlal Nehru National Urban Renewal Mission, 20% grant from Government of Maharashtra and remaining 30% participation from NMC, Nashik.

5.00 The actual retail tariff chargeable should be reassessed on completion of the project (dam and distribution system) keeping in view annual repayment required if any and annual O & M charges including interest liability. The actual average retail tariff should be charged to the industrial and drinking water supply users by levying appropriate retail tariff so that the annual revenues generated will fully cover all liabilities i.e. interest and O & M charges. A copy of this tariff estimation may be furnished to the Authority.

6.00 The Project has been designed for 100% success rate whereas water supply projects are generally designed for 95% success rate. Thus the
storage seems to be overdesigned by 10Mm³. This additional storage may be utilised for environmental flushing flow in summer months i.e. from March to June every year, by provision of low level river sluices.

7.00 Since no irrigation is involved, Governor’s directives relating to backlog do not apply to this project.

8.00 Kikvi Project involves diversion of 207.47 ha forest land. Approval of the MoEF may be obtained for diversion of this forest land and no work should be initiated on this project without this approval.

9.00 Environmental clearance is required for this project as per Notification of Ministry of Environment and Forests, Government of India, September 2006. The environmental angle clearance may be obtained from Competent Authority as stipulated by MoEF.

10.00 The MWRRA is, therefore, pleased to accord clearance to this project under Section 11 (f) of the MWRRA Act as per salient features appended herewith subject to compliance of Para – 5 to 8 above.

11.00 This clearance is issued under reference No. 77 dated 10/06/2009 & is registered under No. MWRRA / 2007 / PRCL / GMIDC / Kikvi / 183 dated 10/06/2009 in the office of the Authority.

12.00 The Receipt of this Memorandum may please be acknowledged.
